Practical Projects (github.com/bookisonfire)

Housing Price Prediction Model | A Recursive Neural Network for Real Estate Valuation | Personal Project | 2025

- Developed and tested a machine learning model to train on .csv data to graph and predict real estate prices based on price and square footage.
- Allows users to enter their own .csv files to retrain the model to use for estimating pricing or seeing if a home is priced well.

davidbookbinder.dev | A Personal Portfolio and Blog Website | Personal Project | 2026

- Developed a personal portfolio website using HTML and CSS.
- Created login and blog pages that allow authenticated users to leave comments on posts. PostgreSQL using Supabase and Javascript to make the website and database communicate.
